COMPANY PROFILE

ABEY PROJECTS is a registered Ghanaian incorporation; the firm was formally registered under the name Abey Projects as a Sole Proprietorship at the Registrar-General's office, Ghana.

Abey Projects began as a general works construction firm in 2014. Over the years, it has undertaken many challenging projects and accumulated skills, technical know-hows and experiences in design and building solutions, construction and engineering services, civil works, renovation works, project costing (estimation), project management, facility management and maintenance, painting and decoration and related engineering services.

Today, the company assumes the role of main contractor for small and medium size projects and performs project management services to coordinate specialist trades for industrial and commercial projects. We also provide design inputs and engineering solutions as value-added services to our clients.

Our general objective is to provide clients with the "I am assured" experience when we are chosen to execute their projects. Our emphasis on clear communication and follow-through procedures ensures that clients' objectives are top priority in the planning and execution of all our projects.

Our project management and execution philosophy is driven by the following steps;

- Create detailed schedule and resource plan to meet client's project
- Communicate clearly with all project stakeholders
- Track projects progress and adjust deviations
- Supervise closely on quality work done
- Complete and commission the project on time
- Provide After Care services for clients

We take pride in our delivery, thus our clients can always be assured that only the most experience and qualified people are serving them all the time.

CORE VALUES

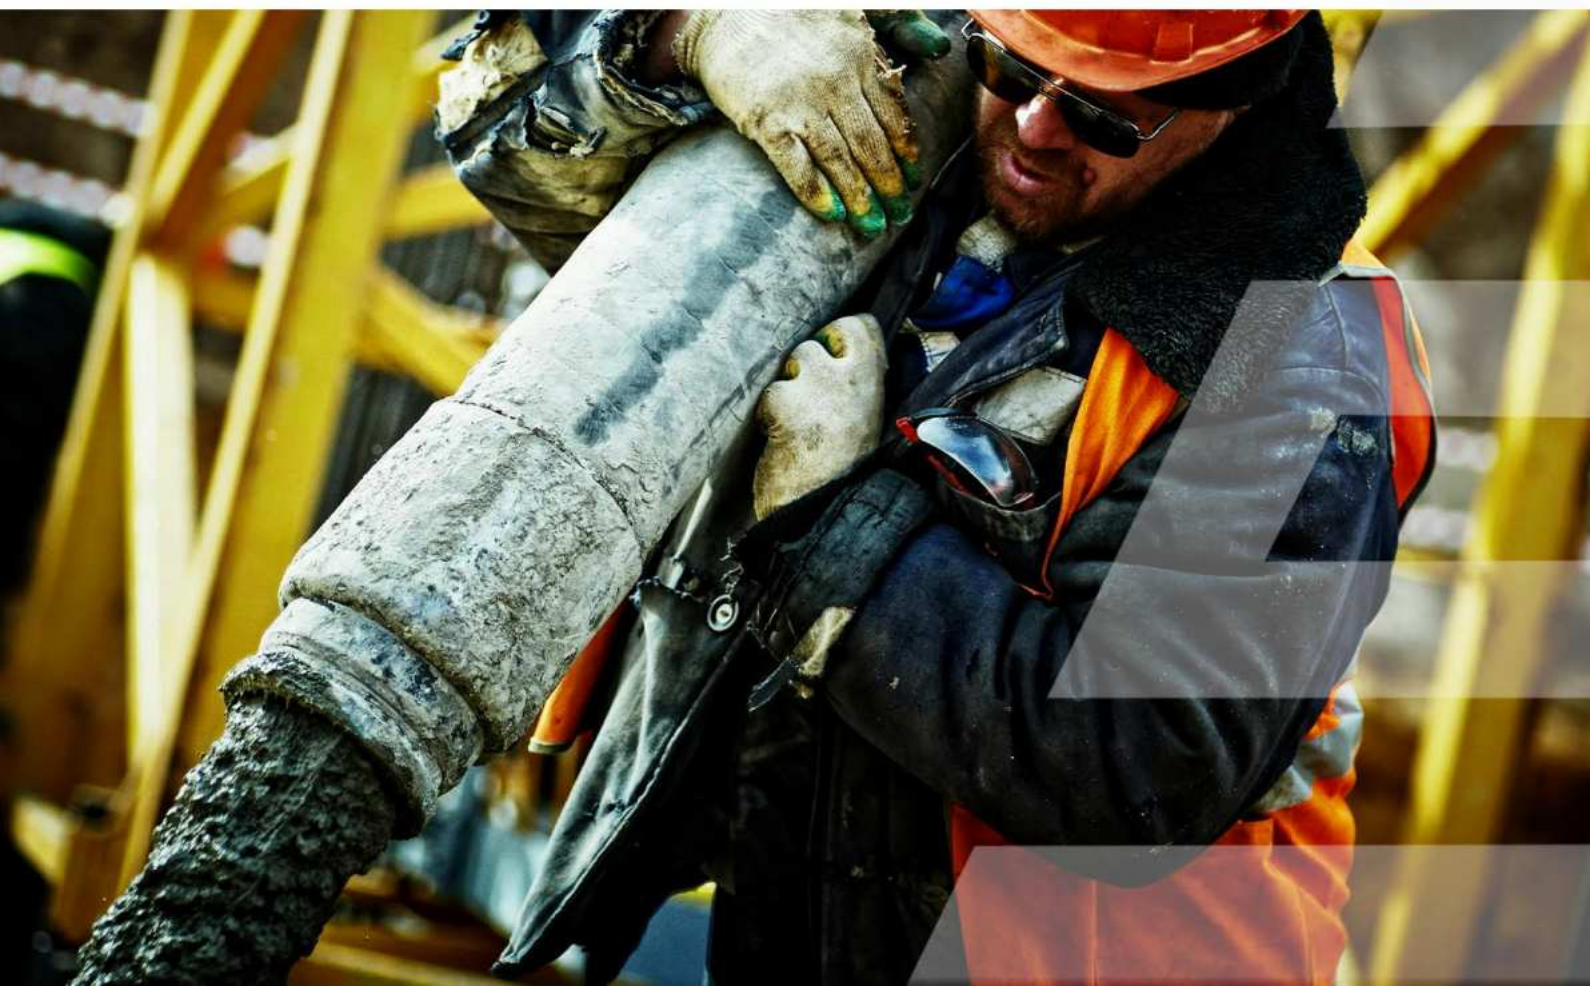

MISSION STATEMENT

To provide quality workmanship and customer service and maintain the highest level of professionalism, honesty and fairness in our relationships with our customers, employees and vendors. To grow by continually providing useful and significant products, services, and solutions to markets we already serve – and to expand into new areas that strengthen our competencies and customer interests.

VISION STATEMENT

To be the preferred contractor of choice and a company that our customers want to work with and our employees are proud to work for.

HEALTH & SAFETY POLICY STATEMENT

Abey Projects is committed to safeguarding the health, safety and welfare of its employees including the people and property affected by its operations. To reduce risk of accident or injury, the company seeks to provide a working environment that, as far as is reasonably practicable, is safe and preserves the health and welfare of those that work within it and those that are affected by its activities.

The company is committed to continuously improve its standards of health and safety throughout its operations. To this end, the board provides leadership in health and safety matters by engaging and training the workforce in the achievement of safe and healthy working conditions and promoting best practice as far as is practicable.

The board is committed to providing adequate resources to train, monitor and assess the company's health and safety performance and deliver the objectives set for continuous improvement. The requirements of this policy are communicated to all employees through the company's heads of department and the management of health and safety is promoted through consultation and involvement.

The health and safety policy is displayed at all company sites and offices and issued to all new staff joining the company at induction. This policy should be read in conjunction with the Abey Projects specific documents detailed within the General Arrangements document.

It is the duty of managers to prevent injury and ill health as far as is practicable and it is the duty of each employee to exercise personal responsibility for their own health, safety and welfare as well as that of other people. Compliance with legal requirements should be adhered to at all times and no breaches should be tolerated.

This policy will be reviewed periodically and amended as necessary to ensure that it remains relevant to the activities of the company and complies with current legislation and best practice.

QUALITY POLICY STATEMENT

It is the aim of Abey Projects Limited to develop its business activities to be seen as a leader in the construction industry in terms of production, quality, job satisfaction and profitability. To achieve this, we need to develop the full potential of our staff, at all levels, by creating an environment in which each person is motivated towards these goals whilst meeting our clients' expectations in order to provide and sustain client satisfaction. These objectives will be achieved by placing particular emphasis on:

- Ensuring there is a high level of awareness of the Company's systems at all levels
- Continually improving the Company's administration and construction management processes
- Meeting, and where appropriate, improving the requirements of the specification
- Achieving construction programs and budgets

The Company shall implement a management system that actively involves the participation and cooperation of all its employees and defines the structure, responsibilities and procedures to be implemented. It is the responsibility of all staff charged with a managerial role to implement the management system into their working methods, and to ensure an ongoing review is undertaken to maintain its effectiveness.

This will enable the management system to reflect current custom and practice and remain proactive in its application. A set of "Performance Measures" shall be derived and implemented by the Company's Directors. These measures shall be an active component of the Company's reporting process in order to determine the ongoing performance of the business.

Abey Projects strives to continually improve its operations and it is our fundamental belief that the quality system will not only increase Client satisfaction but will also enhance the Company's long-term productivity and competitiveness in the marketplace, therefore sustaining the Abey Projects reputation for quality construction.
